## OPIS SPOSOBÓW OCENY OSIĄGANIA PRZEZ STUDENTA ZAKŁADANYCH EFEKTÓW UCZENIA SIĘ

- 1) W skład systemu oceny stopnia osiągnięcia zakładanych efektów uczenia się wchodzi:
  - a) oceny końcowe wystawiane z poszczególnych przedmiotów (ocena z przedmiotu wystawiana jest jako jedna dla całego przedmiotu, niezależnie od związanych z nim form prowadzenia zajęć);
  - b) ocena z praktyki, jeśli program studiów zakłada, że praktyka podlega ocenie;
  - c) ocena z pracy dyplomowej ustalana ostatecznie przez komisję egzaminu dyplomowego;
  - d) ocena z egzaminu dyplomowego ustalana przez komisję.
- 2) Syntetycznym miernikiem stopnia osiągnięcia zakładanych efektów uczenia się dla kierunku studiów jest ostateczna ocena studiów, której sposób wystawiania określa Regulamin studiów Uniwersytetu Szczecińskiego.
- 3) Do oceny stopnia osiągnięcia zakładanych efektów uczenia się z wymienionych w pkt. 1 poszczególnych elementów stosuje się skalę ocen określoną w Regulaminie studiów US.
- 4) Uzyskanie oceny pozytywnej z wymienionych w pkt. 1 poszczególnych elementów wymaga osiągnięcia wszystkich zakładanych efektów uczenia się na co najmniej minimalnym dopuszczonym poziomie.
- 5) Oceny z wymienionych w pkt. 1 poszczególnych elementów są interpretowane następująco:
  - ocena 5.0 (A) – zakładane efekty uczenia się zostały uzyskane, z ewentualnymi pojedynczymi i drugorzędnymi nieścisłościami, które nie mają znaczenia dla osiągnięcia poszczególnych efektów;
  - ocena 4.5 (B) – zakładane efekty zostały uzyskane z nielicznymi błędami;
  - ocena 4.0 (C) – zakładane efekty uczenia się zostały uzyskane z kilkoma zauważalnymi błędami lub niedociągnięciami;
  - ocena 3.5 (D) – zakładane efekty uczenia się zostały uzyskane ze znaczącymi błędami lub niedociągnięciami;
  - ocena 3.0 (E) – zakładane efekty uczenia się zostały uzyskane na poziomie minimalnym z dużymi błędami lub niedociągnięciami;
  - ocena 2.0 (F) – zakładane efekty uczenia się nie zostały uzyskane.

**Wystandardyzowane wymagania uzyskania przez studenta oceny dla poszczególnych kategorii efektów uczenia się (kryteria jakościowe):**

Kategoria efektów	Ocena		
	dostateczny dostateczny plus 3,0/3,5	dobry dobry plus 4,0/4,5	bardzo dobry 5,0
<b>WIEDZA</b>	Dostatecznie poznał i zrozumiał wiedzę przekazaną w trakcie zajęć oraz pochodzącą z literatury podstawowej	Dobrze poznał i zrozumiał wiedzę przekazaną w trakcie zajęć oraz pochodzącą z literatury podstawowej co pozwala mu na rozpoznawanie problemów i ich rozwiązywanie.	Bardzo dobrze poznał i zrozumiał wiedzę przekazaną w trakcie zajęć oraz pochodzącą z literatury podstawowej co pozwala mu na rozpoznawanie problemów i ich rozwiązywanie. Wykazuje się wiedzą pochodzącą z literatury uzupełniającej.
<b>UMIEJĘTNOŚCI</b>	Dostatecznie opanował wszelkie umiejętności przewidziane w sylabusie przedmiotu. Realizując powierzone zadanie popełnia nieznaczne błędy. Nie poszukuje samodzielnie dodatkowych informacji.	Dobrze opanował wszelkie umiejętności przewidziane w sylabusie przedmiotu. Realizując powierzone zadanie popełnia minimalne błędy nie mające wpływu na rezultat jego pracy. Samodzielnie poszukuje dodatkowych informacji ale wykorzystuje je w niewielkim stopniu.	Bardzo dobrze opanował wszelkie umiejętności przewidziane w sylabusie przedmiotu. Bezbłędnie realizuje powierzone zadania. Samodzielnie poszukuje informacji i je umiejętnie wykorzystuje w swojej pracy.
<b>KOMPETENCJE</b>	Uczestnicząc w zajęciach wykazuje słabe zaangażowanie i kreatywność. W niskim stopniu angażuje się w dyskusje. Potrafi zaprezentować wyniki swojej pracy.	Uczestnicząc w zajęciach wykazuje zaangażowanie i kreatywność. Chętnie angażuje się w dyskusje. Dobrze i czytelnie potrafi zaprezentować wyniki swojej pracy.	Uczestnicząc w zajęciach wykazuje duże zaangażowanie, inicjatywę i kreatywność. Zawsze angażuje się w dyskusje. Bardzo dobrze potrafi zaprezentować wyniki swojej pracy i podejmuje o nich merytoryczną dyskusję.

6) Sposób oceniania stopnia osiągnięcia zakładanych efektów uczenia się powinien być jak najbardziej zobiektywizowany. W tym celu zaleca się jego oparcie na systemie punktowym, w którym za wymagane rodzaje aktywności studenta (np. kolokwia, prezentacje, referaty) przydzielane są określone liczby punktów, zaś poziom oceny wynika z przyjętej skali. Można przyjąć następujące kryteria:

Ocena	uzyskany % sumy punktów oceniających stopień wymaganej wiedzy/umiejętności
niedostateczny (2,0)	≤ 50
dostateczny (3,0)	51 – 60
dostateczny plus (3,5)	61 – 70
dobry (4,0)	71 – 80
dobry plus (4,5)	81 – 90
bardzo dobry (5,0)	91 – 100
